Indian Journal of Meteorology & Geophysics

(QUARTERLY)

Issued by India Meteorological Department

Vol. 21 Nos. 1—4
1970

PRINTED BY THE MANAGER GOVERNMENT OF INDIA PRESS
SIMLA FOR THE MANAGER OF PUBLICATIONS CIVIL LINES DELHI
1971

EDITORIAL COMMITTEE (1970)

Editor and Chairman (ex-officio)

P. KOTESWARAM—*Director General of Observatories*

Secretary—**GURCHARN SINGH**

Assistant Secretary—**B. B. SEN**

Members

R. ANANTHAKRISHNAN

F. C. AULUCK

B. N. DESAI

A. MANI

M. G. K. MENON

P. R. PISHAROTY

K. N. RAO

Y. P. RAO

M. S. SWAMINATHAN

A. N. TANDON

Indian Journal of METEOROLOGY & GEOPHYSICS

Vol. 21

Nos. 1—4

CONTENTS

Vol. 21 No. 1

PAPERS

	<i>Pages</i>
On some aspects of the Tropical Cyclone of 20-29 May 1963 over the Arabian Sea — <i>Jose A. Colon, C. R. V. Raman and V. Srinivasan</i>	1
On the global solar radiation climate and evapotranspiration estimates in India — <i>M. Gangopadhyaya, S. V. Datar and C. J. George</i>	23
Radiation Climate of New Delhi—Part I : Shortwave Radiation — <i>Katharina Lettau</i>	31
Radiative equilibrium temperature of the atmosphere along 80° E longitude — <i>R. V. Godbole, R. R. Kelkar and T. Murakami</i>	43
Analogue simulation of anemometers — <i>S. Ramachandran</i>	53

SHORTER CONTRIBUTIONS

On objective assessment of convergence and precipitation by dynamic trajectory method — <i>S. Banerji, D. V. L. N. Rao and M. D. Kundra</i>	59
Forecasting heavy rainfall over Delhi and neighbourhood — <i>Ashim K. Ghosh</i>	65
Discussion of upper air data of 2 and 4 July 1963 from the point of presence of airmasses and the structure of the cyclonic vortex off the Bombay coast — <i>B. N. Desai</i>	71
Use of stability charts in India as a forecasting tool — <i>T. K. Ray</i>	79
Can we utilise upper tropospherical winds for tracking storms in the Bay of Bengal ? — <i>M. M. Baghare and R. K. Datta</i>	81
A simple method of evaluating vertical velocity over small areas for forecasting heavy rainfall — <i>V. Vittal Sarma</i>	87
Short duration analysis of Calcutta (Dum Dum) rainfall — <i>O. N. Dhar and G. Ramachandran</i>	93

Radio ray refraction in the lowest three kilometres over India—Climatological aspects	
— <i>H. N. Srivastava and R. C. Maheshwari</i>	103
Deactivation of the ice-forming aerosols by chlorine	
— <i>R. K. Kapoor, G. L. Chugh and Bh. V. Ramana Murty</i>	107
Monthly wave characteristics of the Bay of Bengal	
— <i>P. S. Srivastava, P. K. Vijayarajan and M. X. Joseph</i>	111
Study of soil heat-flux in a sugarcane field	
— <i>V. P. Subrahmanyam and B. Prabhakara Ratnam</i>	115
Annual variation of amplitude and phase of S_q (H)	
— <i>A. Yacob and D. Radhakrishna Rao</i>	119
LETTERS TO THE EDITOR	
A climatological study of thunderstorms over Tezpur airfield	
— <i>H. N. Gupta</i>	125
Causes of less rain over the Kirthar Range than over the Deccan Plateau in the rain-shadow of the Western Ghats and of near-desert conditions in the northwest of the sub-continent	
— <i>Y. P. Rao and B. N. Desai</i>	126
Anomalies—Sunspot-cycle and regional rainfall	
— <i>D. V. Deshpande</i>	127
Diurnal variation of monsoon low cloud ceiling over Bombay aerodrome (Santacruz)	
— <i>V. Narayanan</i>	128
WEATHER	131

EDITORIAL	
Twentyfive Years of Regional Weather Service	159
PAPERS	
Increase of random errors in temperature forecasts by numerical method and limiting period of reliable forecasts	
— <i>Y. P. Rao and K. S. Ramamurti</i>	163
A study of major rainstorms of Assam	
— <i>P. S. Pant, S. D. S. Abbi, D. K. Gupta and Harish Chandra</i>	169
Diagnostic study of a monsoon depression by Geostrophic Baroclinic Model	
— <i>K. V. Rao and S. Rajamani</i>	187

A study of heavy rainstorms over North Bengal	— <i>S. D. S. Abbi, D. K. Gupta and B. C. Jain</i>	195
A study of atmospheric sodium in twilight	— <i>T. I. Toroshelidze</i>	211
SHORTER CONTRIBUTIONS		
Statistical distribution of pentad rainfall over India during monsoon season	— <i>D. A. Mooley and G. Appa Rao</i>	219
Nucleus richness of cloud air and rainability of clouds	— <i>A. K. Roy</i>	231
Some experiments in the objective analysis of the wind-field over India and neighbourhood	— <i>D. R. Sikka and Y. Ramanathan</i>	237
Spatial distribution of thunderstorm (short-duration) rainfall in lower Gangetic Basin	— <i>P. S. Harihara Ayyar and K. Mukherjee</i>	245
Thundersqualls at Jamshedpur during pre-monsoon months, March-May	— <i>M. T. Jaisinghani and B. K. Mukherjee</i>	249
A pilot study on determining the range of moisture adjustment factors for rainstorms of Madhya Pradesh Region	— <i>R. C. Shenoy, T. G. Changraney and P. K. Raman</i>	253
Estimation of maximum one-day rainfall for different return periods in Uttar Pradesh	— <i>O. N. Dhar and A. K. Kulkarni</i>	259
Measurements of Global Radiation at Jodhpur	— <i>H. R. Ganesan</i>	267
Models of atmospheric refractive index with reference to coastal stations of India	— <i>R. B. Pathak and H. N. Srivastava</i>	273
Equatorial enhancement of geomagnetic field in the Indian Region	— <i>N. S. Sastri and R. W. Jayakar</i>	279
Sunspot activity and associated temperature variations	— <i>B. N. Bhargava and R. K. Bansal</i>	285
Upper Mantle Structure in and around the Indian sub-continent (from S-waves)	— <i>R. K. Dube</i>	291
A 0-200 cps frequency converter for audio-modulated radiosonde	— <i>B. P. Ghosh and S. N. Srivastava</i>	295
LETTERS TO THE EDITOR		
A note on urbanization of Poona	— <i>B. Padmanabhamurthy</i>	303
Intensity of rainfall at Bombay Airport	— <i>A. K. Mukherjee and G. Krishnamurthy</i>	304
WEATHER		307
SEISMOLOGICAL NOTES		315
NOTES AND NEWS		317

REVIEWS

Meteorological Factors Affecting the Epidemiology of Wheat Rusts (<i>M. S. Swaminathan</i>)	327
Weather Modification—Science and Public Policy (<i>Bh. V. Ramana Murty</i>)	327

WEATHER SUMMARY (*in Hindi*)

341

Vol. 21 No. 3

ARTICLE

Rainfall and floods during 1969 southwest monsoon period	347
----------------------------------------------------------	-----

PAPERS

Long-period temperature changes in some Indian stations in relation to solar activity — <i>B. N. Bhargava</i> and <i>R. K. Bansal</i>	355
Micrometeorological and atmospheric diffusion studies at nuclear power station sites in India Part I : Wind profile studies — <i>V. V. Shirvaikar, V. Sitaraman, Ramesh K. Kapoor, A. Sundararajan, L. N. Sharma</i> and <i>P. L. K. Sastry</i>	361
Oceanography of the Arabian Sea during the southwest monsoon season Part I : Thermal structure — <i>J. S. Sastry</i> and <i>R. S. D'Souza</i>	367
Effect of low velocity channel on <i>SH</i> wave — <i>S. N. Chatterjee</i> and <i>S. N. Bhattacharya</i>	383
Metastable O^+ ions in Martian atmosphere — <i>D. C. Agarwal</i>	391

SHORTER CONTRIBUTIONS

Emission of λ 6300 Å in Martian atmosphere — <i>D. C. Agarwal</i>	398
Interaction between lower and upper tropical tropospheres during southwest monsoon season over India — <i>C. A. George</i>	401
A study of vertical wind profile of the tropical easterly jet stream over Madras — <i>R. Y. Mokashi</i>	415
A critical examination of the streamline charts and conclusions of Dixit and Jones on (a) active and (b) weak monsoon conditions — <i>B. N. Desai</i>	421
Forecasting of cirriform clouds over Northern India, Pakistan and Afghanistan from constant pressure charts — <i>Surendra Kumar</i>	433
An experiment in objective analysis for 500 mb — <i>R. K. Datta, B. M. Chhabra</i> and <i>B. V. Singh</i>	437
Diurnal variation of rainfall in India — <i>B. Prasad</i>	443
A study of maximum point and areal rainfall in the Bhima basin upto Ujjani dam site — <i>O. N. Dhar</i> and <i>P. R. Mhaikar</i>	451
A radar study of premonsoon squall lines over Gangetic West Bengal — <i>A. K. Chaudhury</i> and <i>D. K. Rakshit</i>	459

A study of isolated radar echoes of rain clouds around Agartala airport and its neighbourhood	— <i>M. M. Kundu</i>	463
A simplified method of computing radio refractive index	— <i>B. C. Sen and D. K. Rakshit</i>	469
Environmental concentrations of some of the major inorganic pollutants at the BARC site, Trombay, Bombay	— <i>P. K. Zutshi, R. Sequeira, T. N. Mahadevan and Tapoti Banerjee</i>	473
A surface reflected phase from Koyna aftershock	— <i>G. S. Murty</i>	479
<i>P</i> -wave velocities in the upper mantle of the Indian sub-continent from Russian Nuclear Explosions and inferred upper mantle structure	— <i>G. S. Varma</i>	485
On solar zenith angle dependence of annual component quiet-day range in <i>H</i> at Alibag	— <i>A. Yacob</i>	489

LETTER TO THE EDITOR

Visual and radarscope observations of a funnel cloud	— <i>Shravan Kumar and A. K. Sensarma</i>	405
------------------------------------------------------	-------------------------------------------	-----

Vol. 21 No. 4

PAPERS

New features of haze scattering in India as deduced from measurements of atmospheric turbidity	— <i>S. Rangarajan</i>	521
------------------------------------------------------------------------------------------------	------------------------	-----

Micrometeorological and atmospheric diffusion studies at nuclear power station sites in India Part II : Atmospheric diffusion studies	— <i>V. V. Shirvaikar, V. Sitaraman, Ramesh K. Kapoor, A. Sundararajan, L. N. Sharma and P. L. K. Sastry</i>	529
---------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------	-----

On some hydrometeorological aspects of Narmada basin	— <i>S. D. S. Abbi, D. K. Gupta and S. K. Subramanian</i>	539
------------------------------------------------------	-----------------------------------------------------------	-----

On the propagation of spherical waves in a viscoelastic medium	— <i>S. N. Bhattacharya and S. N. Chatterjee</i>	553
----------------------------------------------------------------	--------------------------------------------------	-----

SHORTER CONTRIBUTIONS

Formation of upper anticyclones and their blocking activity during winter over Asia	— <i>M. G. Gupta and K. S. V. Rajagopalan</i>	567
-------------------------------------------------------------------------------------	-----------------------------------------------	-----

Further studies on runway temperature and screen temperature observations made at Dum Dum airport, Calcutta	— <i>A. C. De</i>	577
-------------------------------------------------------------------------------------------------------------	-------------------	-----

Forecasting heavy rainfall along Gujarat coast in association with Bay depressions moving westwards	— <i>S. D. S. Abbi, D. K. Gupta and Hem Raj</i>	583
-----------------------------------------------------------------------------------------------------	-------------------------------------------------	-----

Quantitative precipitation forecasting over small catchment areas by the method of synoptic typing	— <i>D. V. L. N. Rao, C. M. Anand and M. D. Kundra</i>	591
On evaluating design storm for a hilly catchment with inadequate raingauge network	— <i>T. G. Changraney, S. D. S. Abbi and P. K. Datta Roy</i>	599
A preliminary study of potential evapotranspiration by Penman's method	— <i>B. Padmanabhamurty and E. V. Subba Reddy</i>	607
The dependence of long-wave radiation on cloudiness, water vapour content and temperature	— <i>R. R. Kelkar and R. V. Godbole</i>	613
Steadiness of average incoming long wave radiation	— <i>M. Gangopadhyaya and S. Venkataraman</i>	623
Reflection of electromagnetic waves in inhomogeneous medium	— <i>S. N. Chatterjee and H. N. Srivastava</i>	626
Estimates of solar radiation over India	— <i>H. R. Ganesan</i>	629
Lee waves as evidenced by satellite cloud pictures	— <i>U. S. De</i>	637
Errors in the operational gridding of APT pictures	— <i>V. Srinivasan</i>	643
A radar analysis of equatorial precipitating clouds at Thumba	— <i>V. Narayanan</i>	647
LETTERS TO THE EDITOR		
Remarks on the nature and origin of the low-level jet off Somalia and over the Indian peninsula during the southwest monsoon	— <i>Y. P. Rao and B. N. Desai</i>	651
Nature of the low-level inversion over the Arabian Sea and the role of the Western Ghats in modifying airmass stratification within 500 km of the west coast of the peninsula	— <i>B. N. Desai</i>	653
Chemical analysis of rain water at Tezpur (Assam)	— <i>O. P. Verma, Ramesh Kotwani and S. Ramanujam</i>	656
